### Key Features of EPWRF ITS database

Key Features	Description
Time Series Data	Data are made available in time-series format
Data updated timely	As and when data are released, they are updated depending upon the frequency of their release – weekly, fortnightly, monthly, quarterly and yearly
Export data to MS-Excel	In-built facilities to export the retrieved data set to an Excel spreadsheet
Module description	Description has been provided in every module that helps the users to get an idea about the entire module and also a particular section. Definitions of major concepts and terms used in the respective sections and sub-section. Description of the conceptual and methodological issues are provided, when required.
Ease of variable selection	Data series are arranged in a thematic format and presented under various sections. Users can select variables of their choice from same or different sub-sections and accordingly generate tables making it more user-friendly. For instance, in <i>Banking Statistics</i> module the data sets are classified under 'All India', 'State-wise' and 'District-wise' category. Users have the choice of selecting states, districts and variables of their choice and cull out data accordingly, which saves time for compilation.
Plotting Charts	Instant plotting chart

## Accessibility of Grammarly:

Grammarly Max Lytvyn, Alex Shevchenko, and Dmytro Lider founded Grammarly in 2009 with the goal of helping people communicate more effectively. Focusing first on supporting students' grammar and spelling through a subscription-based product, they soon saw the potential of how Grammarly could help in all circumstances — from professional writing to everyday correspondence. Over the next ten years, Grammarly grew the capabilities of an AI-powered writing assistant to go way beyond grammar and spelling into complex aspects of language and communication. Today Grammarly offers an intuitive, real-time interface that's there for people wherever they type, through browser extensions, a web-based editor, a Microsoft Office add-in, a desktop interface, and mobile keyboards.

One-time Self-Registration Process as given below to access Grammarly;

### A. Having VB domain mail ID (xxx.yyy@visva-bharati.ac.in)

**Step 1:** Go to [www.grammarly.com/edu](http://www.grammarly.com/edu) (mandatory to sign up for this URL)

**Step 2:** Click on Join Your Organization button, fill up the self-service form. Ensure that users are registering from their respective official email id (@visva-bharati.ac.in)

**Step 3:** After clicking signup, an activation email will be sent to the user's institutional email ID.

**Please Note:** Your @edu credential verification has been activated and an activation email will be sent to the user's institutional email ID once he/she registers. Users may at times get this in Spam/Junk/Promotion/Update Folder due to mail setting - users are advised to check the spam folder in case the link is not received in the INBOX.

**Step 4:** Kindly Verify the activation mail from Grammarly. Once registered, users will land on the 'Grammarly Editor', which is easy to use and can be explored by the user. The MS Word Plugin can be downloaded from the support page after registration from the link.

<https://www.grammarly.com/office-addin/windows>, the same user ID and Password credentials will grant access to use the Plugin for users.

**Step 5:** Kindly use access code: 'riyCsWRtFoazgotP' for registration.

## Remarks from Scholar:

I took admission to the PhD in February 2021. Due to the pandemic situation still I do not have identity card and could not apply for library card. I was disappointed not to be able to progress my research work. The library is a first-hand source for all research scholars. The frustration was exacerbated after joining an online program on 16 June, hosted by the Central Library. This is because presently, VB library is offering all advance online facilities and resources for students and research scholars through LS Discovery and I couldn't use this facility, due to pandemic. But, as I proposed in that meeting, VB library has taken the special initiative immediately and published a notice to address our (who do not yet have a library card) needs and trying their best so have solved our problems too.

This is truly a commendable initiative taken by the VB Library authority. I feel proud on VB Library for this positive attitude and thanks to all of them.

*Ruma Mukherjee, PhD Research Scholar, Dept. of A.I.H.C & A, Visva Bharati*

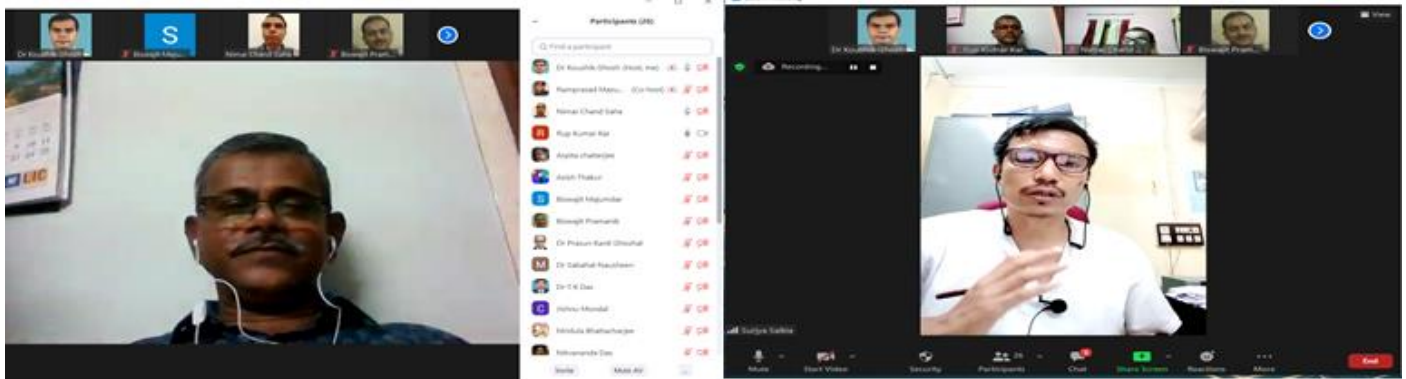

## IMPORTANT LINKS:

- **Project Oscar** (<http://oscar.iitb.ac.in>) : The main goal of Project OSCAR (Open Source Courseware Animations Repository) is to build a large repository of web-based, interactive animations and simulations, referred to as learning objects (LOs), for teaching and learning concepts in science and technology. These could be useful not only for a classroom environment but also for enabling independent learning and distance education.

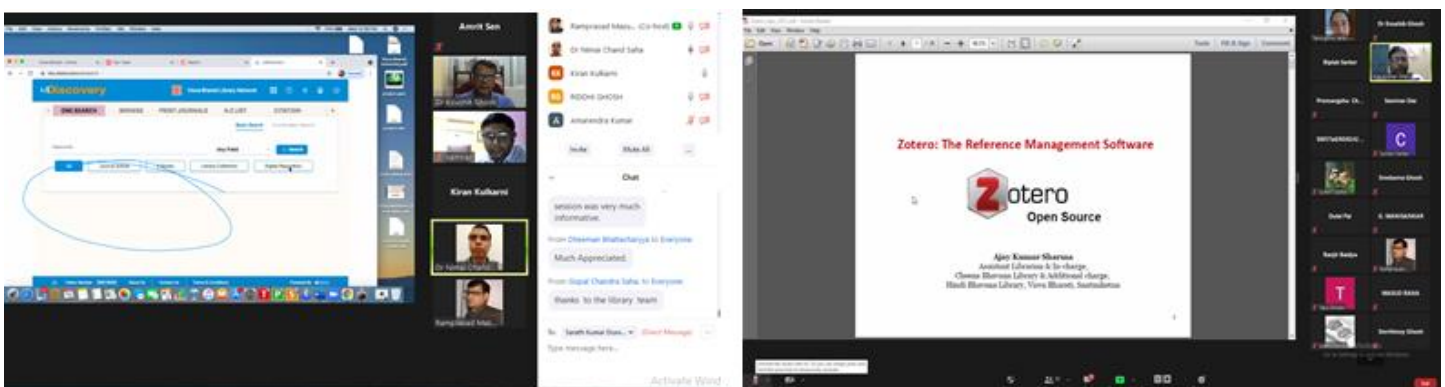

The current goal is to develop LOs for topics in various subjects at the Undergraduate and Postgraduate levels.

An auxiliary goal of Project OSCAR is to provide training opportunities to students in developing LOs, managing the back-end of the repository, and conducting educational research.

- **High wire** (<https://www.highwirepress.com>) : HighWire was born out of Stanford University in the early days of the web. For over 25 years, we have shaped digital scholarly publishing. This combination of deep domain publishing and academic expertise makes HighWire the technology partner of choice for the leading global commercial and academic publishers.
